

APR 02 2012

Dear County Commissioners.

They raised my taxes again this year. You can blame the state tax but it comes down to, is you not facing up to your responsibilities and living within Aitkin County's means.

I don't know what the average income is in our county but I'm guessing it's around 30 to 35,000. You're paying people working for this county 40-90+ and I believe. People shouldn't pay their employees more than they make and I really don't care what Crow Wing, Pine, Mille Lacs pay their county employees this is Aitkin.

I believe cutting some of the salaries and cutting back on some of the social programs might help us a little as tax payers.

The attitude of we need more money so let us raise taxes, property and otherwise is a thing of the past I hope.

I do appreciate everything you do, I'm just asking you to do it a little more efficient.

Mark W. Murphy

Isle, MN 56342

Dear Robert:

We, the Aitkin County Board of Commissioners and Administrator would like to thank you for all your time and dedication to the Snake River Watershed Citizens Advisory Board. You were an excellent representative during your 19 years of service on this committee. We also appreciate the years you served as supervisor with the Aitkin County Soil & Water Conservation District, and as a charter member of the Aitkin County Water Planning Task Force. You have provided a great service for Aitkin County for many years, and you will truly be missed.

Thank you again and best wishes.

Sincerely,

A handwritten signature in black ink, appearing to read 'Patrick Wussow', with a long horizontal flourish extending to the right.

MINNESOTA SOIL AND WATER CONSERVATION DISTRICTS

Mississippi River Projects: April 10, 2012 update

“Green Shores” livestock exclusion fencing:

In the mid 1990's the Aitkin County Water Planning Task Force started a cost-share program to get cattle and other livestock out of rivers and lakes. We paid for 100% of the cost of materials and the landowner's labor was their contribution. A minimum 50 foot vegetated buffer was created between the pasture and the water's edge. Usually the buffer was much wider than 50 feet. Mark Jacobs gets the credit for bringing this idea to the Water Planning Task Force. Most pastures along the Mississippi now have a vegetated buffer. As a result of our livestock exclusion program, the Board of Water and Soil Resources now includes livestock exclusion as an eligible cost-share practice for SWCD's. The Natural Resources Conservation Service also cost-shares on livestock exclusion projects.

“Riverwatch”:

Hill City, Aitkin, and McGregor school districts all participated in Riverwatch for many years. Janet Smude and Steve Hughes trained teachers and students on sampling methods and lab procedures. Equipment was purchased including testing meters, chemicals, and glassware. MHB supported Riverwatch with staff and funding. Several stretches of the Mississippi River were sampled and very good data was collected. Funding for Riverwatch died out about 10 years ago. The Water Planning Task Force and the SWCD is very willing to participate in Riverwatch again.

“Erosion Control Projects”:

Aitkin County SWCD Staff and Supervisors completed an inventory of the Mississippi River from the Itasca County Border to our border with Crow Wing. This inventory of erosion sites and other project areas has been used for obtaining funding and targeting conservation projects.

“Forest Management”:

We are currently working on forest stewardship plans in the Mississippi River corridor. This project is funded through a forestry grant and pays our SWCD Forester, Dennis Thompson, to work with landowners to complete and implement forest management plans. Stewardship Plans covering thousands of acres have been completed and the Mississippi continues to be one of our highest priorities.

Contact Steve Hughes, District Manager if you have questions or comments about any of these projects.
