V. General/Miscellaneous Information

A. MN Choices – Tom Burke – Noted that this is a change in the way we do our assessments. We have gone through the first training for staff and there will be additional training for assessors. We will probably go up in early 2014. If there is a request for additional staff, it will be presented during the budget process.

B. E-Docs Update – Eileen Foss, Income Maintenance Supervisor – Noted we began the scanning process the beginning of June. Between County forms and DHS there are 480 forms, so it is not a simple scan in the document process as there are a number of additional steps involved for each form. We are getting current case files scanned which means the information for the past year. There are document groups for each file which requires learning a new format. All files must be scanned by the end of July and August 5th there will be additional training for On-Base which will be the document management system (meaning no papers or file cabinets).
