---	--------------------------------------

Presenter (Name and Title): Minnesota Power and Great River Energy	Estimated Time Needed: 30 Minutes
--	---

Summary of Issue:

Minnesota Power and Great River Energy are working together to build the Northland Reliability Project. This new, approximately 150-mile, double-circuit 345-kV transmission line, will support continued reliable electric service in northern and central Minnesota. We are in the process of updating our website, but if you're looking for additional information (study area map, overview, etc.) it can be found here: www.northlandreliabilityproject.com.

Alternatives, Options, Effects on Others/Comments:

Recommended Action/Motion:
Discussion Only

Financial Impact:

Is there a cost associated with this request? Yes No
