

Tour of OPPORTUNITIES

212 Minnesota Ave N

This is a family-owned business that was purchased from the original owners in 2015. Since then, we have grown the business to be 5x the size it was when we purchased it.

We're a well-established company that has a steady supply of repeat B2B customers along with a seasoned staff makes this a turn-key operation for the right individual. Included in the purchase is the building, which has a retail storefront, a storefront for the commercial printing side, and three apartments located above.
